

# Calling All SWaM Sub-Contractors!

James Madison University is rapidly growing and expanding its campus. Come join us as we, in coordination with four key construction firms, host subcontractors and SWaM firms from across the state to discuss upcoming projects. Learn about the timeline of events, opportunities for your firm to participate, and network with Construction Manager's. Larger sub-contractors looking for certified SWaM contractors are also encouraged to attend. We hope to see you there!
