

## *Economic Development Loan Fund*

The Virginia Small Business Financing Authority's Economic Development Loan Fund is designed to fill the financing gap between private debt financing and private equity. Funds are provided to create economic benefit through increased revenues and the creation of new jobs and the retention of “at risk” jobs in Virginia. Businesses should meet one of the following criteria within the Commonwealth of Virginia: have \$10 million or less in annual revenues over each of the last three years; or a net worth of \$2 million or less; or have fewer than 250 employees; or be a 501 (c) 3 entity.

### Eligible Borrowers:

- Industrial or Economic Development Authorities empowered by the Code of Virginia to make loans for economic development purposes and other Virginia economic development entities.
- Businesses engaged in technology, biotechnology, tourism, manufacturing, renewable energy, government contractors, basic commercial and industrial companies and those businesses or entities that provide for a locality’s economic and “quality of life” development.
- Businesses which derived 15% or more of their revenues from defense-dependent activities and can demonstrate economic hardship related to defense downsizing.

### Amount:

In economically distressed areas of the state the maximum loan available from the Fund for each project is 40% of the project costs or \$1,000,000, whichever is less. For all other areas of the state, the maximum loan is \$500,000 or 40%, whichever is less. Minimum loan amount is \$50,000.

### Term:

Generally the loan will be amortized over the life of the assets or the borrower’s ability to repay, with a note maturity of not more than 10 years.

### Interest Rate and Fee:

Fixed base rate is tied to “like-treasuries” with a spread based on the credit risk as determined by VSBFA. \$500 non-refundable application fee.
