# Launch of the New Application Portal

Effective July 1, 2017, SBSD launched a new certification portal that changed the way a company applies for all certifications including SWaM, DBE, and ESO. The application process is now an electronic process that requires all supporting documents to be uploaded into the system by the applicant.

The new system will notify vendors 90 days prior to expiration that they need to seek recertification. Businesses that have difficulty with uploading documents can reach out to their assigned DSBSD outreach staff person for support. You can find the outreach staff, as well as the areas they serve, below.

Figure 1
The **new Application Portal** login screen looks like this:

I No Longer Have Access to the Email Address Associated with My Profile

- **Currently, the email address and username associated with a profile cannot be edited at this time.** Therefore, if you no longer have access to the email address used to register, you will have to Register a new profile by following the instructions here: [I Have Not Already Registered in the New Application Portal](#). Then, you will need to contact our office at either 804-786-7694 or sbsd@sbsd.virginia.gov for assistance with linking to any existing applications that were under your old profile, since an application can currently only be linked to one profile at a time.
I Need to Start the SWaM/DBE Application or Recertification Process for an Application that is Not Already in My Application Queue

**NOTE:** If you have not registered in the new Application Portal, please see [I Have Not Already Registered in the New Application Portal](#) before continuing with this section.

When you log in to the new Application Portal for the first time, you will see a screen similar to **Figure 22** with an empty Application Queue.

![Figure 22](image-url)
If this is not the first time you have logged into the Application Portal and you have already started new application(s) or linked to other applications, you will see those applications in your Application Queue, and the Link/New Application button as seen in Figure 23 below:

![Application Portal Interface]

Clicking the Link/New Application button will proceed with either the application linking process OR the new application process, dependent on if your firm already exists in our system or not:

- **Link to an Existing SWaM/DBE application**
- **Create a New Application for a Firm That Has Never Previously Applied for Certification**
Link to an Existing SWaM/DBE application

If you already have a record tracking number/certification number because you applied for SWaM/DBE certification with our agency in the past (even if you did not finish the process or were not certified under that number), then clicking the Link/New Application button will proceed with the application linking process as follows:

1. Click “Link/New Application”
2. Click the radio button for either EIN or Social Security Number. Then enter either the EIN –OR– Social Security number associated with your firm and click Next.

Figure 24
Please contact our office if you cannot remember your previous certification number.

You will also see the screen from Figure 26 if your previous application went too long without any activity and was consequently purged. If that is the case, there is no application to link to, and you should create a new application by referring to the section I Need to Create a New Application for a Firm That Has Never Previously Applied for Certification.
3. If you already have a record tracking number/certification number because you applied for SWaM/DBE certification with our agency in the past (even if you did not finish the process or were not certified under that number), then clicking the **Next** button will proceed with the application linking process and it will ask for your existing record tracking number/certification number as follows:

![Application Processing Portal](image)

**NOTE:** Please contact our office if you cannot remember your existing certification number to enter in the above screen.
New Application Portal Instructions

4. Enter your record tracking number/certification number and click the Link button, and you will see the following dialog box:

![Application found dialog box](image)

- If you do not see the above message, please see When Using Link/New Application, the Portal Says the Application is Already Linked with the Business Owner

5. Click the Close button and the application will now be in your Application Queue
Granting Another User Access to an Existing SWaM/DBE Application

If you tried to link to an existing SWaM/DBE application and saw the message from *When Using Link/New Application, the Portal Says the Application is Already Linked with the Business Owner*, and you are the administrator-level user that needs to grant access to another user, then following the below instructions:

1. After logging in, you see the following screen, and need to click the **Business Owners** tab on the left:

![Application Processing Portal](image)

Figure 27
2. You’ll see the following screen, and will need to click the button +Add Business Owner:

![Figure 28](image)

3. You will see the following pop-up box, into which you will need to enter the email address of the person you want to grant access and then click Send Request:

![Figure 29](image)
4. The person you are granting access to will then be sent an email with a link to accept your invitation:

![Email Invitation](image)

**Figure 30**
5. After logging in, or registering and logging in, they will see a Notification icon (looks like a bell) in the top right of the screen and that icon should have a number overlaying it. Click that icon:

![Figure 31](image)

6. Then click the invitation message under that Notification:

![Figure 32](image)
7. A popup box with two buttons for the option to either accept or reject the invitation will appear:

Figure 33

8. After clicking Accept, instead of their account showing just an outline on the Business Owners tab, their icon will become filled in:

Figure 34
9. You will not be able to grant them access to application(s) for which you have administrator-level access until they accept your invitation. Once they do, click the box with their username, and click the **Link** button:

![Image of Application Portal]

**Figure 35**
10. Enter the certification number of the application that you want to grant them access, then click the **Link** button, then the **Yes** button to confirm:

![Link Application](image)

**Figure 36**

11. Click the **OK** button and the application will now be in their Application Queue.
Removing Another User’s Access to an Existing SWaM/DBE Application

1. You may remove a user’s access to an application for which you have administrator-level access by either clicking the icon that looks like a link and clicking the Yes I’m Sure button on the resulting pop-up box:
2. You may also remove a user’s access to ALL application(s) for which you have administrator-level access by clicking the **Unlink button** and clicking the Yes I’m Sure button on the resulting pop-up box:

![Figure 38](image-url)
3. You may also remove a user, which will consequently remove their access to ALL application(s) for which you have administrator-level access by clicking the icon that looks like a circle with a line through it and clicking the Yes I'm Sure button on the resulting pop-up box:
Create a New Application for a Firm That Has Never Previously Applied for Certification

If you do NOT already have a record tracking number/certification number because you have not applied for SWaM/DBE certification with our agency in the past, then clicking the Link/New Application button will proceed with the new application process as follows:

1. Click “Link/New Application”
2. Click the radio button for either **EIN or Social Security Number**. Then enter either the **EIN –OR- Social Security number** associated with your firm and click **Next**
3. You will then see the dialog box show below, and will need to click the Yes button:

![Link Application](image)

**IMPORTANT NOTE:** If you see a message similar to the above but believe that you DO already have an existing application, it may not have been found because the Federal EIN for your business changed since you last applied, or because you previously used your social security number as opposed to a Federal EIN for your business. In that case, click the Back button and on the previous screen that asks for your firm’s EIN or Social Security Number enter your firm’s previous EIN or Social Security Number that you used when you last applied and proceed. Once you link to your application, you will be able to updated your firm’s EIN or Social Security Number to the current Tax ID.
4. You will then be taken to the application information section to start filling out an application:

Important Notes About Attaching Documents

- Any documents that you attach in the New Application Portal **MUST NOT** be password protected. Frequent Issues People Have in the Application Portal

The Portal Won’t Allow Me to Move Forward on My Application

You are attempting to create a duplicate application. You already have an existing application in the system and need to use your Tax ID and record tracking number/certification number to link to your application. Use the Instructions for I Need to Link to My Existing SWaM/DBE application. If you cannot remember your previous certification/record tracking number, please contact our office at 804-786-7694 or sbsd@sbsd.virginia.gov to find out that number.
When Using Link/New Application, the Portal Says the Application is Already Linked with the Business Owner

When using the **Link/New Application** button, you may see a message where the Portal says “Application you are trying to find is already linked with another user/the business owner. Please try again with different application details, or if these details are correct, contact the firm’s owner/administrator of this account to request access. If you are the main owner of this firm, please contact sbsd@sbsd.virginia.gov to request that you become the main administrator of this application.”

In this case, someone from the firm has already linked to the firm’s application, likely another owner or another employee of the company. The user with administrator-level access will have to grant you access to the application. Please have the user with Administrator-level access see [Granting Another User Access to an Existing SWaM/DBE Application](#) for how to grant permission to access the application to another user.

If the incorrect user has administrator-level access to an application, and since an application can only one administrator-level user at a time, please contact our office at sbsd@sbsd.virginia.gov to have the administrator-level user an application is associated with changed.

Be aware that in order to have an application that is already linked to an administrator-level user changed to a different user, the change must be authorized by an owner of the firm whose contact email is on file. (Please also note that it is best if the administrator-level user is the/an owner of the firm. Even if the owner will not actually be the one updating the application now and in future, they can always grant and remove access to other users by referring to the instructions for [Granting Another User Access to an Existing SWaM/DBE Application](#). If the owner’s email address is not already on file due to certification having been handled by other employees in the past, the owner will likely be requested to attach proof of their identity in order for their request to be processed.
I Need to Upload Documents and There is No Available Upload Space

If there are relevant documents you need to upload that either do not appear on the upload screen, or for which the upload space has already been used, you can create one or more upload spaces for those document(s):

1. On either the DBE Documents upload screen or the SWaM Documents upload screen, click the + icon in the Miscellaneous Documents section:
2. Enter a concise, descriptive name for the document you are uploading, then click the Save button icon to the right of that newly-created space:

3. You may now upload a document to that space using the upload icon, or you can delete that upload space by clicking the trash can icon to the right of the space if you did not name it correctly or do not need to use that space:

4. You may create another Miscellaneous upload space, if appropriate, by repeating these steps.
